

# Children who should receive a flu shot:

- All children ages 6-23 months
- Children ages 2-18 years old with chronic underlying medical condition
- Children ages 2-18 years old on chronic aspirin therapy

## If your child needs a flu shot:

- Call your child's healthcare provider to make an appointment to receive the vaccine
- If no vaccine is available:
  - Ask your healthcare provider to place your child on a list for vaccine
  - Look for local vaccine clinics
  - Check [mainepublichealth.gov](http://mainepublichealth.gov) for vaccine availability in your area

## All children should be taught the *Keep Germs to Yourself* steps!
